A webcast for this presentation will be available in the Investor Relations section of the BSM website. Presentation materials will also be made available on the BSM website the day of the event.

About Black Stone Minerals, L.P.

Black Stone Minerals is one of the largest owners of oil and natural gas mineral interests in the United States. The partnership owns mineral interests and royalty interests in over 40 states and 60 onshore basins in the continental United States. The partnership also owns interests in and participates as a non-operating working interest partner in established development programs, primarily on its mineral and royalty holdings. The partnership expects that its large, diversified asset base and long-lived, non-cost-bearing mineral and royalty interests will result in production and reserve growth, as well as increasing quarterly distributions to its unitholders.
